### **Rethinking Education**

Lebanon and the Arab world have adopted outdated education systems that have not evolved with the times and its sciences. That is why unemployment has increased steadily and the return on higher education has declined. Everyone's asking why I waste three years and pay all that money to work for \$50 a month."

## It not just about your degree anymore

The public sector, which has attracted surplus employment, has been filled, and today there is a counter-march of demobilization, so what will the demobilized and new graduates do.
